

Scientific Meeting, Danish Society of Nephrology

Novel clinical and molecular aspects of chronic kidney disease

Thursday, October 6th, 2011, 15.00 – 17.30

Indgang 50, Klinikbygningen, Lecture room "Aarestrup" auditorium,
Odense University Hospital, Sdr. Boulevard 29, 5000 Odense C

15.00 – 15.10	Welcome	Jan Carstens Department of Nephrology Odense University Hospital.
15.10 - 15.35	"Monitoring of arterial vascular properties in chronic kidney disease"	Alexandra Scholze Department of Nephrology and Institute of Molecular Medicine, OUH
15.35 - 16.00	"Syndecan 4 regulates TRPC6 channels in podocytes via RhoA/ROCK Signalling"	Ying Liu Department of Nephrology and Institute of Molecular Medicine, OUH
16.00 - 16.20	"Monitoring after kidney transplantation"	Christoffer Borst Department of Nephrology and Institute of Molecular Medicine, OUH
16.20 – 16.40	Coffee	
16.40 - 17.20	"Role of transient receptor potential channels in kidney disease"	Martin Tepel Department of Nephrology and Institute of Molecular Medicine, OUH
17.20	Concluding remarks. New applicants for DNS membership.
