Hypertension and the Kidney

Odense University Hospital/University of Southern Denmark
Venue: Auditorium, J. B. Winsløvsvej 25, University of Southern Denmark Odense
C. NB not Campus area, but close to OUH.

Thursday September 25th 2014, 15.00 - 18.00

Program

- 15.00 Renal compensatory hypertrophy and functional adaptation after kidney resection. Prof. Frank Schweda, Regensburg University, Germany
- 15.30 Antihypertensive effect of PTRAs (Choral study)-what is new?
Consultant Ulrik Andersen, Glostrup Hospital, Copenhagen
- 15.50 Presentation of ongoing projects from young scientists:
- "Renal blood supply and oxygenation in chronic kidney disease"
Dinah Khatir, MD, PhD, Skejby Hospital
- "Evaluating Renal Denervation: Combining 24-hour ABPM and quantifying antihypertensive medication"
Lene Kjær Olsen, MD, Rigshospitalet, Copenhagen
- 16.20 - 16.50 Coffee break**
- 16.50 Update on Renal Denervation
Ole N. Mathiassen, MD, PhD, Skejby Hospital, Aarhus
- 17.10 Optimal and stepped-care standardised antihypertensive treatment with or without renal denervation for resistant hypertension: The French DENERHTN randomized study Renal Denervation – Experience from France
Prof. Michel Azizi, Université Paris Descartes, France Hypertension Unit and Clinical Investigation Center, Hôpital Européen Georges Pompidou and Paris-Descartes University, Paris, France
- 17.45 Panel Discussion on Renal Denervation: Where do we go from here?
- 18.00 Meeting Closes
