This course has been awarded 12 CPD Points by the Royal College of Physicians
This annual course uses a mixture of lectures and small group case discussions to explore end of life care for patients with renal disease.

The meeting is aimed at all renal and palliative care professionals including consultants and medical trainees. Numbers are limited, so please apply early.

**Meeting theme**
Changing culture to enable patient-centred care at end of life

**Organising faculty**
- Edwina Brown
  Consultant Nephrologist
  Imperial College Healthcare NHS Trust
- Fliss Murtagh
  Reader & Consultant in Palliative Medicine
  Kings College London
- Emma Murphy
  Clinical Lecturer
  Faculty of Health Sciences
  Southampton University

**Aims of meeting**
- Promoting communication between renal and palliative care health professionals
- Improving management of end of life for renal patients
- Improving understanding of frailty and its impact on patient outcomes
- Use of small group discussions to enable networking and understanding of pathways used in different renal units
